Santiago Orozco Holguín

Software Engineer

Medellín, Colombia + Remote · santiago@orozcoh.com · www.linkedin.com/in/orozcoh · github.com/orozcoh · santiago.orozcoh.com · cv.orozcoh.com

SUMMARY

Software engineer with 6+ years building distributed systems and web platforms. Deep in event-driven architecture, API design, and performance work; comfortable owning services from RFC to production.

EXPERIENCE

Independent Software Engineer — Self-employed

Jun 2023 – Present · Remote · Self-employed

- Designed, developed, deployed, and maintained multiple production-ready web applications from concept to deployment using modern web technologies.
- Built Progressive Web Applications (PWAs) with a focus on mobile-first experiences, local-first principles, and maintainable software architecture.
- Designed cloud-native solutions using Cloudflare Workers, Cloudflare KV, REST APIs, and edge infrastructure.
- Developed software products exploring authentication, cryptography, passkeys, blockchain technologies, AI-assisted workflows, and distributed systems.

Software Engineering Intern — TSO Mobile Colombia

Oct 2022 – May 2023 · Medellín, Colombia · Internship

- Collaborated with the engineering team to modernize frontend development workflows and reusable component architecture.

PROJECTS

career-os

Resume infrastructure as software

Single source of truth for professional identity. Structured YAML data compiles into ATS-friendly PDF, HTML, DOCX, and Markdown resumes plus a static website.

- Tag-based template system generates four targeted resumes from one dataset with zero duplication.

Technologies: Astro, TypeScript, Tailwind CSS, Zod, Playwright, pnpm

Source

SKILLS

Languages: TypeScript, JavaScript, Python, Go, SQL

Backend & Infrastructure: Node.js, PostgreSQL, Event-driven architecture, Cloudflare Workers, Docker

Practices: Testing (unit, contract, e2e), CI/CD, Technical writing & RFCs

EDUCATION

Bachelor's Degree Electronics Engineering — Universidad de Antioquia

Aug 2014 – Jun 2023 · Medellín, Colombia

- Developed a strong foundation in software engineering, embedded systems, electronics, mathematics, and computer architecture.
- Completed an engineering internship focused on modern web development, TypeScript migration, and reusable component libraries.
- Transitioned academic interests toward software engineering through independent product development and modern web technologies.
